Urban commuters that want to be well organised in their everyday life are excellently supported with the practical organisation system of the Giga series. The revised Airstripes back system provides the necessary ventilation for the back. You never break into, even on stressful days, in the office, at uni, or in school.

BACK SYSTEM: AIRSTRIPES SYSTEM DAYPACK

- 1 Two air-channeled Airstripes pads with AirMesh lining and minimal back contact provide maximum airflow.
- 2 Anatomically shaped shoulder straps guarantee comfortable freedom of movement.
- 3 The detachable hip belt provides great load distribution. (Graduate, Giga, Gigant, Giga Pro)
- 4 The bilaminate construction made from one soft and one firm layer of foam provides excellent carry comfort and optimum load distribution.

MATERIAL

600D PES

Made from 600 den Polyester thread and with a thick PU coating, this multi-purpose fabric is robust and lightweight. It is most suitable for backpacks, used in average conditions to keep the weight to a minimum.
