BACK SYSTEM: AIRCOMFORT FLEXLITE SYSTEM

- 1 Load adjuster straps enable precise backpack positioning.
- 2 Anatomically shaped shoulder straps with airy, comfortable Soft AirMesh lining.
- 3 Anatomically shaped, sturdy hip fins with Pull-Forward adjustment and close set anchor points give a snug fit and spread the load to the hips (Futura 24 SL - 35 EL).

MATERIAL

210D PA Ripstop

210 den Nylon fabric with strong ripstop threads and PU coating. This fine, lightweight and yet abrasion resistant nylon is optimal for lightweight backpack construction.

210D PA Ripstop

Ultra-tight weave, hard wearing 210 Denier Nylon. Recognisable by the very technical, shiny surface incorporating tough Ripstop threads. This lightweight and extremely robust fabric is perfectly suited to the manufacture of lightweight products. Top quality PU coating. This highly technical material is used for lightweight Alpine and Trekking models.
