This handy sized, PFC-free sleeping bag is ideal for mountaineers that value low weight. This makes the summer sleeping bag with synthetic filling perfect for travels, a night at a cabin, or a bivvy. This light-weight sleeping bag packs down super small and easily fits in smaller backpacks.

HIGHLIGHTS OF DREAMLITE

Lightweight
even less weight

1-Layer Construction

The outer shell material is sewn to the upper layer of Polyester fleece. Since this construction can lead to cold spots, we only use it in summer sleeping bags.

Inside Pocket
internal zip pocket for valuables

PFC Free

High-performance materials with a PFC-free coating to resist water and dirt

SUITABLE FOR

 Travelling

 Camping

 Trekking

 Huts

CONSTRUCT: 1-LAYER

MATERIAL

78D PA

A soft, breathable, non-moisture sensitive, and fast drying shell material. Strong and durable, used on the Starlight EXP and Little Star EXP models.

70D PA Ripstop

Hexlite is an extremely lightweight and soft fabric that is used for the outer shell material in the Dreamlite series. This ripstop nylon material is also characterized by its water-repellent finish.

Polydown Soft Polyester fibre
