Bottom Width:	43 cm
Pack-Size:	ø 19 cm x 33 cm
Outer lining:	
Inner lining:	
Fill:	Deuter Thermo ProLoft®
Fillweight:	870 g
MSRP:	189,95 €

Our PFC-free synthetic sleeping bags are the solution for trekkers looking for an optimal warmth-to-weight ratio. Elastic chamber seams keep the synthetic sleeping bag close to the body. It's expandable by 25% in width. This offers lots of freedom of movement and allows the sleeping bag to warm-up quickly since the sleeper doesn't need to heat up much air. The 360-degree filling makes sure that you can toss and turn in your sleep without getting cold. The identically elaborate filling on top and bottom sides guarantees you 360-degree warmth in any position. The new functional contour hood wraps snugly around the head. The raised, diagonally cut foot section ideally adapts to the natural foot posture. New materials ensure a comfortable and low-noise sleeping climate.

HIGHLIGHTS OF EXOSPHERE -6°

Compatible

SOFT BODY-WARMER-FLEECE INSERTS in particularly sensitive areas in SL sleeping bags (waist & foot section) for added warmth and comfort.

Warmth Collar

THERMAL COLLAR with Velcro closure avoids cold spots. Three dimensional construction for a comfortable, snug fit around shoulders and neck.

Inside Pocket

internal zip pocket for valuables

Foot Warmer

FOOT WARMER with an extra fill layer guards against cold feet .

Shingle-Layer Construction

The three layers of insulation overlap up to three times in the seam area and thus avoid cold spots.

Stretch Comfort System

MUMMY SHAPE WITH STRETCH utilises highly elastic baffle stitching. The Ther-mo Stretch Comfort technology creates a snug fit which warms the body up quickly and simultaneously allows the bag to expand up to ¼ in width offering fantastic freedom of movement.

Ergofoot

RAISED FOOT BOX designed with the natural feet position in mind, it provides additional comfort and freedom of movement.

Dryzone

keeps moisture outside with a water repellent shell material in the head and foot section .

PFC Free

High-performance materials with a PFC-free coating to resist water and dirt

Ergo Hood

Easy to use contour hood even in the dark thanks to one round and one flat drawcord

SUITABLE FOR

 Camping

 Trekking
